

Man must explore, and this is exploration at its greatest

Problems look mighty small from 150 miles up Posted by Start Bootstrap on January 31, 2020 · 4 mins read

I believe every human has a finite number of heartbeats. I don't intend to waste any of mine.

Never in all their history have men been able truly to conceive of the world...

Science has not yet mastered prophecy

We predict too much for the next year and yet far too little for the next ten.

Failure is not an option

Many say exploration is part of our destiny, but it's actually our duty to future generations.

Posted by Start Bootstrap on January 29, 2020 \cdot 4 mins read

The dreams of yesterday are the hopes of today and the reality of tomorrow.

Never in all their history have men been able truly to conceive of the world...
